MAGNETO BLUETOOTH HEADSET

Enjoy a true wireless experience for your mobile calls!

Easily connected with your Bluetooth device, Magneto headset answers your incoming calls when picked up from its cradle and can easily juggle with two devices at the same time, switching between calls at the touch of a button. Jogging from one meeting to another? Magneto will stay perfectly fit during your rush hours.
A built-in high-definition microphone ensures your calls stay crystal clear while roaming through the noisy urban jungle.
When it comes to charging, just take the headset's cradle, find the nearest USB port and enjoy the perks of its wireless magnetic inductive charger: no cables needed, just plug and charge! Magneto's charging cradle rotates at 180°, so you can plug however, wherever.

**RACER STEREO BLUETOOTH HEADSET**

Music is your passion. You enjoy listening your favourite beats while pushing yourself to new heights in the gym or outdoors. It's your time to recharge your batteries and free your mind for challenges to come. What are you up to next? If there's something you can't accept, it's distraction. You are focused and quality time is precious. When there are people around you chatting about things that don't concern you, you choose to surround yourself with music that keeps you going. There is nothing you will miss. Any incoming calls during your warm-up? Just push the button, pause the music and answer it. The built-in HD microphone, with sixth-generation CVC noise cancelling will make any caller believe that you are right in your office.

The racer headset series, featuring Bluetooth 4.0 offers crystal-clear sound after a quick and easy wireless pairing. Move your body — the stylish behind-ear streamlined design guarantees a stable and comfortable wearing experience.

**ENKI BLUETOOTH HEADSET**

Are you looking for a new and special headset, one that's easy to wear and fits perfectly on both of your ears?

Meet Enki!

Enki is designed using the best materials under a new concept - the sound is transmitted through air vibration, leaving your ear free. Non-ear plug and the built-in external speaker are closer to the ear, not inside the ear and the sound waves reach you in a natural way, hearing the sound from outside. Enki's special concept, ear-hook type, allows you to use the headset for both ears and brings you a brand new sound wearing experience. Enki headset is compatible with all Bluetooth enabled devices and will report incoming calls, messages or low battery. It automatically switches off when long time no-use and will reconnect automatically when restarting to the last connected device. Considering the structure and design, the speaker has the closest position from the ear which allows to hear the sounds and calls very clear.
Get ready for a new sound experience!

HYPNOS 2.1 BLUETOOTH SOUND BAR SYSTEM

If you are not believing in love at first audition, let us play again some music! Close your eyes and let Hypnos to do its beautiful job.

With an elegant looking, excellent sounding and deep bass, it will hypnotize and make you answer to its dancing call. The very first thing you'll noticed about the Hypnos's sound system is its remarkable clarity and a powerful bass.

Designed to quickly connect to your television for an instant home theatre solution, the system automatically reproduces detailed, high-output sound in almost any size room no matter what format of sound is coming from the TV’s output. The dedicated subwoofer will add punch and rumble to TV shows and movies, creating a fuller sound and more effectively projecting audio throughout the room.

Solidly simple and its black appearance make Hypnos fits every home design. Being easy to install and operate across the room thanks to an included remote control, Hypnos System complements your sound experience needs.

Built-in Bluetooth® lets you stream music easily from your smartphone, tablet, or Bluetooth-capable computer. It works with the music stored on your phone as well as your favourite streaming music apps (like Spotify®).

KALI BLUETOOTH SOUNDBAR SPEAKER

If you want a stylish appearance, this speaker will bring you the best listening experience. Get the party started and enjoy your latest party playlists!

Kali will charm you with well-amplified drivers, the emitted sound being a full and dynamic one, bringing alive a loud and clear audio experience in your living room or bedroom. Kali is a self-powered soundbar designed to be used as an independent audio system. This makes it very convenient as you can simply connect the audio outputs of your TV and Kali will amplify and reproduce the sound without the need for added connection to an external amplifier or home theatre receiver.

The EQ function allows you to adjust the volume level of a frequency, or range of frequencies because we know that a good equalization is important to a good mix. Used correctly, an equalizer can provide the impression of nearness or distance, “fatten” or “thin” of a sound.
Kali soundbar will complement your TV and thanks to its light weight can be mounted on a shelf or table just below the TV. Its fashion and sleek design suit any home decoration. Kali soundbar is slim, unobtrusive, easy to set up and incorporates wireless Bluetooth to access audio content from compatible portable devices (smartphones, tablets, computer etc.), but also through an AUX cable.
